Hand Cleaners

S-410 ANTISEPTIC

ANTISEPTIC eliminates all common bacteria, and yet at the same time, softens, moisturizes, conditions and soothes the skin leaving a refreshing fragrance. It is pH balanced to be gentle, and rinses quickly and completely from the skin. ANTISEPTIC is Environmentally Friendly. Used in all areas where a high standard of hygiene is essential. ANTISEPTIC is effective against the following bacteria: Stag. Au., Strep. Pyo., B. Coli., B. Proteus., PS. Pyocyanea., S. Typhi-Friedlander's Bac., B. Subtilis., and all common bacteria. For use by personnel in: Health Care Centers, Hospital Wards, Schools, Restaurants, Food Processing Plants, and Pharmaceutical Manufacturing. ANTISEPTIC is approved by the Department of Health & Welfare D.I.N. #765406 (Drug Identification Number) and the Department of Food & Agriculture. Active ingredient is 2 Phenoxy ethanol at 2.5% concentration to kill bacteria on contact. ANTISEPTIC contains botanical extracts such as aloe vera, sage, rosemary, chamomile, and nettles

S-417 BLUE BREEZE

A concentrated, but gentle pH balanced, non scented, ready to use hand and body soap. BLUE BREEZE is antibacterial and has been designed for use in public washrooms, hotels, restaurants, industrial plants, and commercial buildings. BLUE BREEZE can be used in commercial dispensers and in the shower, will work equally well in hard or soft water, has an excellent shelf life, and is non toxic. BLUE BREEZE contains a blend of synthetic surfactants and emulsifiers, with glycerin. BLUE BREEZE leaves the skin totally clean, conditioned, and rinses quickly and completely from the skin. BLUE BREEZE contains botanical extracts such as aloe vera, sage, rosemary, chamomile, nettles, and also wheat germ derivatives, skin soothing oils, moisturizers and conditioners.

S-411 C-PLUS (CREAM)

A unique development in hand care, C-PLUS derived from the natural cleaning oils found in oranges. Removes all soils and stains from your hands, yet leaves your hands clean, refreshed, and moisturized. It is antibacterial and contains more lanolin than other cleaners on the market. Contains no solvents and is available with/without pumice. Environmentally Friendly.

S-415 GEL WITH PUMICE

A concentrated, non-varsol based, antibacterial, gentle, pH balanced hand cleaner with maximum cleaning power. GEL WITH PUMICE removes the most stubborn dirt, soils, and grime, safely and effortlessly and yet gently to the skin. It also removes grease, oil, paint, glues, epoxies, tar, resins, inks and all other hard to remove substances. GEL WITH PUMICE leaves the skin totally clean; conditioned, and rinses off grease free. GEL WITH PUMICE contains botanical extracts such as aloe vera, sage, rosemary, chamomile, and nettles. It also contains wheat germ derivatives, lanolin, skin soothing oils, moisturizers, and conditioners.

S-412 MECHANIX (OUR BIGGEST SELLER)

A heavy duty hand cleaner, with pumice, specially formulated to remove paint, stains, lacquers, ink, and epoxies. In addition, MECHANIX is antibacterial and removes all stubborn dirt, stains, and oils, from your hands, and yet is designed to be totally safe and gentle on the skin.

S-413 OJ LOTION

Removes all soils and stains from your hands. OJ LOTION is derived from the natural cleaning oils found in oranges. OJ LOTION is antibacterial and offers maximum skin protection with exclusive skin conditioners and moisturizers. Contains high percentages of lanolin. Non-greasy with no after film, no harsh chemicals, or solvents, the most environmentally safe hand cleaner on the market. Available with pumice for added scrubbing power.

S-414 PINKY

A concentrated, but gentle pH balanced, ready to use hand and body soap. PINKY is antibacterial to help fight the spread of germs and bacteria. PINKY can be used in commercial dispensers and in the shower. PINKY has been designed for use in public washrooms, hotels, restaurants industrial plants, and commercial buildings. PINKY contains a blend of synthetic surfactants and emulsifiers, glycerine, with a pleasant almond fragrance. PINKY will work equally well in hard or soft water, has an excellent shelf life, and is non-toxic. PINKY leaves the skin totally clean, conditioned, smelling refreshed, and rinses quickly and completely from the skin. PINKY contains botanical extracts such as aloe vera, sage, rosemary, chamomile, and nettles. PINKY also contains wheat germ derivatives, skin soothing oils, moisturizers, and conditioners.

S-416 WHITE CREAM

A non varsol based, antibacterial, gentle, pH balanced with maximum cleaning power. WHITE

CREAM removes the most stubborn dirt, soils, and grime, safely and effortlessly and yet gently to the skin. WHITE CREAM also removes grease, oil, paint, glues, epoxies, tar, resins, inks, and all other hard to remove substances. WHITE CREAM leaves the skin totally clean, conditioned, smelling refreshed, and rinses off grease free. WHITE CREAM contains botanical extracts such as aloe vera, sage, rosemary, chamomile, and nettles. WHITE CREAM also contains wheat germ derivatives, lanolin, skin soothing oils, moisturizers, and conditioners. WHITE CREAM is available with or without plastic scrubbers.

Automotive

CC-512 BIG BLUE

A top quality, blue liquid, car wash detergent specifically designed for use as an automatic car wash as well as manually. BIG BLUE may be applied with brushes, foam generators, or hand mitting. B/G BLUE contains superior lubricity for longer brush life. It is a mild, concentrated, product that produces a high stable foam, is phosphate free, and is fully Biodegradable. It can also be used for industrial cleaning and degreasing, using a pressure washer with a dilution of 100 or 50 to 1, depending on the severity of the job.

CC-513 BLITZ

An excellent alkaline cleaner and brightener of aluminum trailers and other exterior aluminum surfaces, painted or unpainted. As opposed to acid aluminum brighteners which requires a cleaning operation prior to brightening. BLITZ will do both in one operation. BLITZ contains active alkaline builders, detergent and wetting agents, water conditioners, road film removers, and corrosion inhibitors.

CC-516 TRANSIT WAX REMOVER

A specialized, highly effective cleaner for the removal of the protection wax used in the transportation of vehicles, TRANSIT WAX REMOVER will not damage the paint on new vehicles and is biodegradable.

CC-517 TURBO II

An excellent, non-solvent, engine degreaser for removal of grease, oil, and dirt bonded with grease from metal surfaces. TURBO II is totally Biodegradable. TURBO II will not harm paint. TURBO II can be used as is or diluted, simply spray on, let stand a few minutes, rinse off.

CC-519 DETAILERS CHOICE

A premium cleaner, degreaser used in the automotive industry for cleaning white walls, carpets, and upholstery. Used for degreasing engines, bug removal, cleaning of brake carbons, vinyl, and plastics. DETAILERS CHOICE is water soluble and fully biodegradable.

J-618/F-912 FABRICLEAN

A superior upholstery and carpet cleaner that is a special blend of chemicals, formulated for use in effective removal of soil, grime, spots, and stains, from virtually all upholstered fabrics. FABRICLEAN contains organic solvents, and special cleaning chemicals, to provide fast and efficient results on all types of fibers, while improving optical and color brightness. It is necessary to test for color fastness before use.

J-630 OPTIX

A ready to use, not controlled, not regulated, biodegradable, glass and mirror cleaner. OPTIX contains wetting agents and penetrating properties that reduce the surface tension of hard and soft water, and insures streak free windows.

Plumbing Care

J-638 SENTRY

SENTRY is a grease trap maintainer, designed to maintain free flowing trap drain. Ideally the treatment should be carried out at the end of the working day. SENTRY is a powerful, citrus degreaser, emulsifier, and deodorizer. It is non-corrosive, environmentally safe, and fully biodegradable. SENTRY contains no acids, no alkali, no petroleum distillates, and no harmful chlorinated solvents, as most treatments on the market do. SENTRY is a new approach in an effective, safe and pleasant smelling solution to grease trap maintenance.

J-639 ZYMO L

ZYMO L is a highly active liquid formulated with a blend of selected micro-organisms and enzymes to provide an excellent breakdown of starches, carbohydrates, cellulose, fats, grease, and oils. It is a safe, biodegradable, and natural solution for a broad spectrum of organic waste, stains, and odor problems. ZYMO L can be used for a variety of applications such as: 1) Trap and drain maintenance for grease deposits and odor control. 2) Waste degrading of septic tanks, porta-toilets, R.V.3, waste

water ponders and lagoons. 3) Fabric and carpet organic stain and odor removal [milk, vomit, urine, feces, blood, coffee, and wine, etc.). 4) Bathroom maintenance [surface cleaning and odor control).

Disinfectants, Sanitizers & Deodorizers

J-610 BAC-OFF

A concentrated combination of biodegradable detergents, wetting and emulsifying agents, deodorizers and quaternary bactericides. It is formulated to control odors around sewage disposal plants, drainage ditches, garbage areas, compactors, animal shelters, stables, toilets, and catch basins, etc.

J-616 D-PELL

D-PELL is the safe, sanitary, and quickest way to absorb, deodorize, and pick up virtually any foul smelling liquids and semi-liquids. A dry, granulated, and free-flowing chemical compound specifically designed to destroy both inorganic and organic malodours. The granules absorb many bad odors while giving off their own positive "Sweet Smelling" scents.

J-619 FORMULA G

A highly concentrated, germicidal cleaner, and disinfectant for use in restaurants, hotels, schools, food plants, farms, and hospitals. A registered product with Pest Control Products Act and bears a Drug Identification number. An active sanitizer for food processing equipment, dishes, glassware, and cooking utensils. A great disinfectant for floors, walls, and any hard surface, sink tops, garbage pails, telephones, restrooms in nursing homes, and institutions. Used also for disinfection of previously cleaned surgical instruments, dental equipment, and barber tools.

J-620 FRESH AIR

A liquid deodorant designed to eliminate organic odors instantly. FRESH AIR is a highly concentrated, pleasantly scented product recommended for use on carpets, garbage receptacles, toilets, washrooms, bedpans, urinals, portable toilets, lockers, diaper pails, and in automatic scrubbers. Excellent for hospitals, nursing homes, institutions, jails, health spas, hotels, and restaurants.

J-621 GERM FREE

A newly developed, powerful germicidal cleaner, and disinfectant. Pest Control Products Act and bears a Drug Identification Number. GERMFREE is registered with EPA and is designed for institutional use in hospitals, nursing homes, and institutions, where housekeeping is of prime importance in controlling the hazard of cross infection. GERMFREE is a pleasant lemon scented product, and very effective for controlling odors caused by growth of bacteria. Excellent for use on all hard surfaces, bed pans, operating rooms, and restrooms, etc. Effective against salmonella choleraesuis, staphylococcus aureus, escherichia coli, pseudomonas aeruginosa, and pathogenic fungi. Also very effective as a virucide against canine distemper, canine herpes, and pseudorabies.

J-623 HYGENE

A concentrated sanitizer, disinfectant, bactericide, fungicide, and algicide for demanding jobs. Excellent for floors, walls, all hard surfaces, sinks, garbage pails, pool and spa areas, and restrooms, etc. Registered with PCPA and bears a D.I.N.

J-629 ODOR-X

ODOR-X is a concentrated liquid sanitizer, deodorizer, and disinfectant. A pleasant, lemon scented product. It is very effective for control of odours caused by growth of bacteria, mold, mildew, and fungi. Recommended for use on floors, walls, sink tops, garbage pails, restrooms, and refuse areas, etc.

J-637 LEMON FRESH

A concentrated deodorizer and odor eliminator with a pleasant lemon scent. May be used as an additive to carpet cleaning extraction equipment, on sports equipment, and shoes, or simply spray 1 or 2 times in the center of room.

Cleaners & Degreasers

CC517/TURBO II

An excellent; non-solvent, engine degreaser for removal of grease, oil, and dirt bonded with grease from metal surfaces. TURBO II is totally Biodegradable. TURBO II will not harm paint. TURBO II can be used as is or diluted, simply spray on, let stand a few minutes, rinse off.

I-811 CITRO SOLV

CITRO SOLV is a natural, powerful citrus, and degreaser-cleaner concentrate designed for a multitude of industrial/commercial applications. It is non-corrosive and contains no harmful chlorinated solvents, petroleum distillates, acids, or alkali. CITRO SOLV is environmentally safe and

fully biodegradable. An organic formulation. CITRO SOLV offers a new approach in one step cleaning of grease and oil from most surfaces, while leaving a fresh, natural citrus scent. Very economical as it may be diluted up to 80 to 1 for effective cleaning.

I-812 COMPLETE HD

A concentrated, heavy duty, hood and floor degreaser and cleaner. COMPLETE HD is a highly alkaline degreaser, with sequestering agents and surfactants. Specifically designed for the tough cleaning associated with kitchen canopies, grills, deep fryers, hood screens, fume hoods, and ovens.

I-813 CONSOLV

A completely water soluble exceptional degreaser for cleaning a wide variety of surfaces. CONSOLV requires no solvent and is nonflammable. It rinses well and leaves no film or offensive odors. CONSOLV is ideal for cleaning/degreasing engines, concrete floors, and "off road" equipment. Apply by pressure washer, steam cleaner or by brush.

I-816 ULTRA

A powerful, water soluble, totally biodegradable, general purpose cleaner, which quickly out powers tough oil and grease-bound soils. ULTRA is pleasantly scented, rinses easily, and leaves surfaces free of film and sparkling clean. ULTRA is equally effective when applied by hand or by power cleaning equipment. Now available with germicide.

I-818 BUTYL CONCENTRATE

A top quality all purpose liquid butyl cleaner and degreaser that can be used to clean almost any surface. BUTYL CONCENTRATE will not harm plastic, cloth, paint, or vinyl. BUTYL CONCENTRATE contains surfactants, water softeners, active detergent builders, and organic solvents. It is efficient in cold and hot water and is safe on aluminum and painted surfaces and is non-flammable.

J-625/J-626 NEO CLEAN (DOMESTIC)

NEO CLEAN (DOMESTIC) is biodegradable, and environmentally friendly. NEO CLEAN (DOMESTIC) is the leading multi purpose cleaner on the market today. NEO CLEAN (DOMESTIC) is excellent on aluminum, vinyl siding, ovens, mildew, tile grout, patio furniture and cushions, clothes stains, floors, stainless steel, whitewalls, pools, chrome, carpets, leather, as a mark remover, formica, equipment, rubber, car engines, crayons, puck marks, work clothes, rust, appliances, upholstery, pet stains, bugs, road tar, porcelain, driveways, pen marks, floor stripper, and walls. Now available with germicide.

J-627/F-914 NEUTROL HD

This is a highly effective, viscous floor cleaner and scrub detergent concentrate. NEUTROL HD is a hard surface synthetic cleaner with no soap content, made to effectively clean in hard or soft water areas. Properly reduced with water, it is mild enough to use as an excellent floor cleaner without removing the wax. Dilute NEUTRON HD 5 to 1 with water and then follow further dilution rates relative to the label recommendations. NEUTRON HD contains anionic, controlled foaming surfactants, sequestering agents, and active detergent builders.

J-635/I-817 TUFFY

TUFFY is a non-butyl, degreaser, cleaner, and odor counteractant, that will quickly emulsify animal, vegetable, petroleum oils, and greases. TUFFY is fully biodegradable, completely soluble in cold and hot hard, or soft water. It is free rinsing, noncorrosive, and nonflammable. TUFFY does not contain butyl cellosolve or perfume, thus imparting no odors in food plants. As a powerful cleaner, TUFFY can be diluted with up to 80 parts of water.

Specialty Cleaners & Polishes

J-611 CAGE CLEAN

A water based, powerful, natural citrus, degreaser-emulsifier-deodorizer-cleaner, that was designed for effective cleaning of animal cages and holding areas. It is non-corrosive, and contains no harmful chlorinated solvents, petroleum distillates, acids, or alkali. CAGE CLEAN is environmentally safe and fully biodegradable. It is a specially developed formulation for one step cleaning and deodorizing, removing animal oils and waste residue while leaving a fresh, natural citrus scent, inoffensive to animals.

Glass Care

J-622 GLASS & CHROME CLEANER CONCENTRATE

A perfectly balanced blend of synthetic detergents to wet surfaces evenly and lift soils, soot, grime, nicotine, etc., and a safe, evaporating solvent for boosting the removal of thin greasy films, crayon, etc. GLASS & CHROME CLEANER CONCENTRATE leaves windows and mirrors bright and shiny, free from streaks.

J-630 OPTIX

A ready to use, non-ammoniated, glass and mirror cleaner, containing wetting agents and penetrating properties that reduce the surface tension of hard and soft water, and insures streak-free windows.

J-640 C-MORE

Cleans and brightens all glass. Dissolves smudges, grime film, etc. No streaks or cleaner residue. Surfaces stay clean longer. Contains surfactants that provide wetting and penetrating properties that reduce the surface tension of hard and soft water, insuring streak free windows.

Floor Care

J-614 CLING

CLING is a water-based product for use on dust mops and cloths. The treatment imparts a positive charge on the fibers of the cloth or mop. This charge acts like a magnet to attract dust particles which are negatively charged. CLING will not harm or streak finishes and will wash out easily when laundered. CLING also contains a sanitizer which will control odors and bacteria. The CLING treatment is safe to use on all hard surfaced floors, woodwork, venetian blinds, and on duct filters in heating systems or air conditioners.

J-615/F-911 D-FOAM

A white, viscous liquid, silicone-based product designed to eliminate and inhibit foam in water based systems. It is ideally suited for defoaming in cleaning operations as well as a wide variety of other conditions where excess foam is undesirable.

J-617 EASY TRAX

Is designed to clean, remove heel marks, repair, and improve the gloss of floor finishes. It is important to have a good base (4 coats) before starting a spray and buff program. EASY TRAX is an ideal method of maintaining high traffic areas, as only a small area is damp at any one time.

F-913 HEAVY TRAX

Is a high solids, heavy traffic floor finish. It is an excellent, non-powdering, salt resistant, all purpose, concentrated floor finish, designed to provide a brilliant finish in high maintenance areas. HEAVY TRAX levels beautifully, dries quickly, and may be buffed with high speed machines for high gloss. Rated excellent in all categories of flow + recoat, dry time, gloss, scrubability, restorable, heel mark resistance, and scuff resistance.

F-916 STRIP ALL

A highly concentrated, water soluble, stripper designed for speed stripping of floor finishes. It can be used with a scrubbing machines and will perform well as a heavy duty stripper, in this type of application.

F-917 TERRASEAL

TERRASEAL has been formulated to seal new and old, porous concrete, and tile floors. It is far more versatile and effective than the urethane based sealers generally used. Old floors are restored to their rich appearance, enhancing the colours and the gloss. TERRASEAL provides the ultimate protection from dirt, soil, stains, and salt. TERRASEAL will not yellow, and will improve the effect and performance, of virtually all finishes and waxes.

F-918 TRAX

Is a non-slip, regular commercial traffic, floor finish. It is an excellent, non-powdering, salt resistant, all purpose, floor finish, designed to provide a brilliant finish in high maintenance areas. TRAX is a beauty to level, dries quickly, and may be buffed with high speed machines for extra high gloss. Rates excellent in all categories.

F-919 WAX STRIP

Is a highly concentrated, water soluble, solvent stripper, designed for speed stripping of floor finishes. WAX STRIP does not require machine scrubbing or neutralizing, before applying floor finish. It can be used with a scrubbing machine, and will perform well as a heavy stripper.

F-920 WAX STRIP A

Is an ammoniated cleaner, containing detergents, emulsifiers, and alkali builders. WAX STRIP A was designed for use under all water conditions, both soft and hard water. WAX STRIP A is excellent for removing old finishes off terrazzo, vinyl, rubber, and other tile, yet very economical.

Q-911 SUPER CRETESET

A very special, technically advanced, fast setting, chemical action, concrete. This very unique product will "set" for traffic use in 15 – 30 minutes. It is more than ten times stronger than conventional "ready-mix" concrete, works in sub zero temperatures, has a multitude of application uses, and simply a must for masonry, concrete repair, or any maintenance.

Carpet & Upholstery Care

J-612/F-910 CARPET & UPHOLSTERY CLEANER

This is an industrial strength cleaner intended for use with hot water extraction equipment. CARPET & UPHOLSTERY CLEANER was formulated with the professional carpet cleaner in mind. A blend of low foam surfactants, safe solvents and builders provided a powerful product that quickly penetrates and suspends the most stubborn soils. The distinctive fragrance leaves carpets smelling fresh and clean. CARPET & UPHOLSTERY CLEANER also meets the criteria for safe use on the latest generation of stain resistant fibers. A superior upholstery and carpet cleaner that is a special blend of chemicals, formulated for use in effective removal of soil, grime/ spots, and stains, from virtually all upholstery fabrics.

J-618/F-912 FABRICLEAN

A superior upholstery and carpet cleaner that is a special blend of chemicals, formulated for use in effective removal of soil, grime, spots and stains from virtually all upholstery fabrics. FABRICLEAN contains organic solvents, and special cleaning chemicals, to provide fast and efficient results on all types of fibers, while improving optical and color brightness. It is necessary to test for color fastness before use.

F-915/J-631 ROTACLEAN

Is a liquid cleaner for rotary shampoo machines. ROTACLEAN is a completely soluble, stable, and highly effective detergent, for dry foam cleaning of carpets, rugs, and upholstered fabrics. It is formulated for use in any applicator or manual application.

F-921/CC520 STAIN REMOVER

STAIN REMOVER disinfects and deodorizes and has been specially formulated to serve as both a spot stain remover and cleaner for "very dirty" carpets and upholstered. STAIN REMOVER rapidly dissolves most water and oil-based stains without causing color fading. STAIN REMOVER can be used with a sprayer or machine and leaves carpets and upholstery with a professional look of complete cleanliness.

Washroom Care

J-613 CLEAN ALL

A smooth, viscous cream cleanser and deodorizer for use on porcelain, tile, chrome plated and polished metal surfaces. A free rinsing product that clings to vertical surfaces and effectively removes stains and buildup. Contains n-alkyl dimethyl benzyl ammonium chloride – 0.5%.

J-623 HYGENE

A concentrated sanitizer, disinfectant, bactericide, fungicide, and algacide for demanding jobs. Excellent for floors, walls, all hard surfaces, sinks, garbage pails, pool and spa areas, and restrooms, etc. Registered with PCPA and bears a D.I.N.

J-641 DRIP IT

A concentrated, non-polluting, deodorant cleaner that contains no petroleum distillates, acids, or caustic. DRIP IT is for use in drip units, bowls, and urinals.

Kitchen Products

I-812 COMPLETE HD

A concentrated, heavy duty, hood and floor degreaser, and cleaner. COMPLETE HD is a highly alkaline degreaser, with sequestering agents, and surfactants. Specifically designed for the tough cleaning associated with kitchen canopies, grills, deep fryers, hood screens, fume hoods, and ovens.

J-625/J-626 NEO CLEAN (DOMESTIC)

NEO CLEAN (DOMESTIC) is biodegradable, and environmentally friendly. NEO CLEAN (DOMESTIC) is the leading multi purpose cleaner on the market today. NEO CLEAN (DOMESTIC) is excellent on aluminum, vinyl siding, ovens, mildew, tile grout, patio furniture and cushions, clothes stains, floors, stainless steel, whitewalls, pools, chrome, carpets, leather, as a mark remover, formica, equipment, rubber, car engines, crayons, puck marks, work clothes, rust, appliances, upholstery, pet stains, bugs, road tar, porcelain, driveways, pen marks, floor stripper, and walls. Now available with germicide.

J-6351/I-817 TUFFY

TUFFY is a non-butyl, degreaser, cleaner, and odor counteractant, that will quickly emulsify animal vegetable, petroleum oils; and greases. TUFFY is fully biodegradable, completely soluble in cold and hot, hard or soft water. It is free rinsing, non corrosive, and non-flammable. TUFFY does not contain

butyl cellosolve or perfume, thus imparting no odors in food plants. As a powerful cleaner, TUFFY can be diluted with up to 80 parts of water.

K-715 GLEAMO RINSE

A highly effective, rinse additive which allows quick drying without spotting or streaking. GLEAMO is ideally suited for use in automatic dishwashers and glass washers. GLEAMO should be used with automatic dispensing equipment.

K-716 LEMON SUDS

LEMON SUDS is very high sudsing, thick liquid detergent for manual cleaning of dishes, pots, and pans: Contains a very pleasant lemon scent. LEMON SUDS is phosphate-free and is biodegradable with excellent emulsifying characteristics that will provide clean film free dishes with ease and economy. LEMON SUDS may be used with automatic dispensing systems.

K717 MACH II DISHWASH

A heavy duty, granular chlorinated dishwashing product designed to provide excellent cleaning in tough commercial or institutional applications. MACH II DISHWASH contains caustic and other alkaline builders, water conditioners, active cleaners, and wetting agents.

Specialty Products

Q-910 BILGE CLEANER

A highly effective, biodegradable liquid cleaning concentrate containing emulsifiers, corrosion inhibitors, wetting and cleaning agents. For cleaning bilges, bilge plates, machinery and piping, decks, and hulls.

Q-912 VINYL SIDING CLEANER

An excellent cleaner on all plastic, vinyl, and aluminum siding. This product is water soluble and is fully biodegradable. VINYL SIDING CLEANER contains no harsh abrasives and can be used in pressure wash applications.

Q-913 CUTTO

Non-hazardous, water soluble compound. Use in all machines calling for water-based oils and lubes, rolling oils or drawing compounds, including planers, milling machines, drills, lathes, stampers, and grinders, etc. Safe on any surface. Non-corrosive, non-rancid. Will extend life of cutting tools 100%. Will keep machines and machinists clean, and reduce maintenance time. Use of CUTTO eliminates need for post-machining solvent baths. For tapping, threading, drawing, and forming, CUTTO is recommended. CUTTO is a new development which provides greater lubricity. Active rust inhibition when diluted with up to 10 parts of water.

Q-914 DESICCANT

Moisture absorbent. Available in various sizes and mediums.
